

Learn Geography and Sustainable Development Become a global citizen!

The **Department of Geography and Sustainable Development** offers courses that bridge the gap between human society and the physical environment and prepare you to find solutions to some of the world's most pressing problems, such as environmental change, population dynamics, biodiversity loss, unsustainable urbanization, and global inequalities. Take one of the Department of Geography and Sustainable Development courses in **Fall 2026** and become a global citizen.

To explore the **environment**, take:

- GEG 120 Physical Geography — [Prof. Sen Roy](#)
- GEG 231 Environmental Geography — Prof. Taves
- GEG 341 Population, Health, and Environment — [Prof. Stoler](#)
- GEG 345 Global Water Security and Sustainability — [Prof. Stoler](#)
- GEG 390 Climate Resilience — [Michael Berkowitz](#)

To develop a **global perspective**, take:

- GEG 110 Introduction to Human Geography — [Prof. Sheskin](#)
- GEG 201 Topics in Geography: Globalization and Change — Prof. Wong
- GEG 204 Global Economics — [Prof. Wang](#)
- GEG 331 Sustainable Development — [Prof. Silva](#)
- GEG 351 Geopolitics and Peacebuilding — Prof. Wong
- GEG 357 Economics of Sustainable Development — [Prof. Wang](#)
- GEG 561 Seminar in International Development — [Prof. Silva](#)

To understand **urban challenges**, take:

- GEG 365 Land Use Planning — [Prof. Praharaj](#)
- GEG 520 Sustainable Cities — [Prof. Grant](#)

To develop **research skills and spatial thinking**, take:

- GEG 305 Spatial Data Analysis I — [Prof. Sheskin](#)
- GEG 306 Geographic Research Methods — Prof. Taves
- GEG 310 Geographic Information Systems I — [Prof. Praharaj](#) | [Prof. Zhu](#)
- GEG 321 Remote Sensing of the Environment — [Prof. Sen Roy](#)
- GEG 410 Geographic Information Systems II — [Prof. Zhu](#)
- GEG 412 GIS for Health and Environment — [Prof. Zhu](#)
- GEG 421 GIS and Environmental Modelling — [Prof. Zhu](#)
